Serial numbers

Certificate

The product key ensures that you own genuine Microsoft software.

This serial number is valid for this Microsoft product only and protects the software from copyright infringements and unauthorised reproduction.

After the installation process, you will be asked to activate Windows using the supplied serial number.

Please refer to the reverse side for activation instructions.

Microsoft Product Key for the installation of your software.

Please retain this information for future reference!

Activation by Telephone

1. If Windows isn't able to activate online, you will have the option to use the activation by telephone.

2. Open Windows activation
   • Start button, right-click Computer
   • click Properties > click Activate Windows now

3. Enter the Windows Product Key and click Next.

4. Click Use the automated phone system.

5. Choose your country from the drop-down menu.

6. Call one of the telephone numbers listed. An automated system will guide you through the activation process.

7. Follow the instructions on the screen.

8. When asked for the number of computers --> type 1.
   This is to ensure that the key has been used on only one computer.

9. Type the confirmation ID into the space provided under Step 3 in the activation dialog, click Next, and then follow the instructions.

10. If activation isn't successful, stay on the line to be transferred to a customer service representative who can assist you.

11. You have successfully activated your system.
